STRIKE LEADERS ARE CONFOUNDED

Puts All Their Plans Awry.

REVOLUTION IS

Most Drastic Measures Will Be Taken to Prevent Concerted Uprising.

Madrid, September 20 .- The strikes in many cities of Spain continue, but revolution seems to have been completely confounded by the prompt and energetic action of the government. The postponement of the general strike

until to-morrow is regarded as indicating that the back of the movement is broken.

The government, while preparing to take the most drastic measures, does not lose sight of the democratic ideals which have inspired its program. Premier Canalejus declared to-night that, martial law notwithstanding, the government would respect the right to strike, if legally followed, but he gave fair warning that if the employes of the public services strike without giving the previous notification as required by law, the promptest measures would be taken to end the strike. Other strikers, he added, who stepped outside the pale of the law would be mercilessly prosecuted, and at the outside the pale of the law would be mercilessly prosecuted, and at the ould use their arms without hesita-

"All those who wish to demonstrate in the streets will have their chance to-morrow," said the Premier. "I am determined once for all to finish with these mutterings of revolution."

So far as a censorship of great severity allows conditions to be known, there were no serious disorders in the provinces to-day. Most of the princip-

there were no serious disorders in the provinces to-day. Most of the principal agitators either were laid by the heels, or their actions were crippled effectively. Telegraphic and telephonic communication has been cut orf from all suspected persons, including the Republican and Socialistic leaders. Houses have been searched and arms setzed, and the prisons are crowded with rioters and political suspects. The activity of the government seems to have had a salutary effect on the workmen, and the authorities are consident that to-morrow's general strike

will prove more or less of a flasco.

King Alfonso has announced his intention of remaining in Madrid until the crists is over.

According to the official news received to-day, the situation generally has improved, and the government believes that the movement will be all over by Monday. Bilbao is quiet. At Saragossa work was resumed this afternoon. The stores are open at Huelva, but at Alcira the strike is complete and the civil guard was forced to-day to intervene to prevent pillinge of the provision stores.

Madrid presents its usual appearance, except for the presence of the police in the streets.

Mr. Andrews comes of good old New England stock. He was the first man to engage in newspaper correspondence work and the first to send a news message over the first telegraph wire ever strung into Des Moines, Ia., which is now his home:
"Allow me to say that I have been using Duffy's Pure Malt Whiskey for some time as a tonic stimulant, and relief to the exhaustion and debility consequent of my age (83), and find it palatable, satisfactory in therapeutic effect and free from the injurious by-products found in most, if not all, other whiskies. I must say it is gratifying to obtain a preparation reliable and conforming to the declaration of its purity attached to each bottle."—

Norfolk, Va., September 20.—Notice was given in court to-day by the McLean Contracting Company, of Baltimore, that it will ask the United States Circuit Court here on September 26 to assume control of the Norfolk Southern Railway properties and resell them, under a decree of court seventeen months ago. The notice was given in connection with a pending suit against the railway by the Trust Company of America.

The case grew out of the alleged failure of the road to comply with a court order that it pay \$23.335, with interest, for fifteen montis for the benefit of the Baltimore concern.

The Norfolk Southern is claimed to have tied up the money by paying the principal without the interest.

In West Virginia there is apparently In West Virginia there is apparently much unrest over the situation. The Governor is being sharply criticized in that he called a special session of the Legislature and made no mention in his call of the debt situation, and allowed that body to adjourn without alluding to it in any of his messages.

Under the cirsumstances many West Virginia statesmen hold that had the Legislature taken any step at the special session in regard to a matter not mentioned in its call, its action would have been null and voil.

A sharp attack on the administration of West Virginia for what is termed "gum shoe policy" was made Monday last in an address of United States Senator Chiliton, who, in the course of a general discussion of State issues took up the matter of the Virginia debt.
